SATO

TEMPCHECK°

As employers prepare for the successful revitalization of their businesses, measures need to be taken to ensure employee and customer safety.

> Supporting employers in providing a safer workplace, TEMPCHECK kits monitor the health of employees, customers and visitors to minimize risk of spreading illness.

TEMPCHECK - CT4-LX

Health Screening & Temperature Measuring Kit

The CT4-LX TEMPCHECK kit provides a ready-to-use solution for businesses to monitor the health of employees, customers and visitors as they enter the workplace, and safeguards the information within a **confidential logging system**.

- Kit includes Employee and Vendor (customer/visitor) versions of the TEMPCHECK software so data is kept separate.

- Pre-loaded with health screening questions.

- Use any temperature reading device.

- **HIPPA Compliance** - entered health information is kept confidential within the logging system and is not made public on the printed label.

- Customization of software and label design is available for an additional fee.

Kit Contents

Part Number:	CT4LXTEMPCHECK100
