

BarTender® Professional Services

Full-service BarTender lifecycle
implementation and transformation

Optimize time to market and gain a competitive advantage with the BarTender Professional Services team. Our solution consultants maximize the value of your BarTender solution quickly and successfully, from deploying your new solution to modernizing your labeling workflow.

Why companies trust BarTender Professional Services

- True BarTender expertise
 - no one knows BarTender software like we do
- 5,000+ global labeling sites serviced across every industry and geographical location
- Custom File Drop and REST API integrations with your business systems and applications (ERPs, WMSs, MESs, etc.) to enable automation for improved business processes
- Decades of experience with complex installations and deployments

Deploy with confidence

Maintain business continuity by ensuring your new, or updated, BarTender solution is set up and configured properly. We help you get up and running quickly with minimal IT resources.

Maximize labeling efficiency

Minimize labeling errors by enabling your label templates to “do more” for you and automating your labeling processes with custom integrations (including REST API and File Drop) with your business data and systems.

Strengthen your labeling workflow and skills

Whether you're looking to upgrade your BarTender application or fill in knowledge gaps across your team, we provide custom training and consultation to identify new opportunities to optimize your labeling workflow.

We deliver results for any need in any labeling environment

01	BarTender setup & configuration	Fully deploy your customized BarTender solution in under 2 hours*
02	Label template design	Print industry-compliant labels specifically designed for your application
03	Label template management	Minimize the number of label templates you need with template consolidation
04	Third-party system integration	Seamlessly integrate your business data with your labels
05	Label printing efficiency	Automate your label printing to minimize printing errors
06	Workforce training & optimization	Upskill your team and onboard new team members
07	BarTender software update	Update your BarTender software with ease

*Guaranteed for BarTender instances with a limited number of servers

Deployment & implementation services

QuickStart

A two-hour remote product overview designed to help you successfully deploy BarTender. The session can cover any BarTender-related topic you need including installation and setup, system database configuration, BarTender interface walkthrough, hands-on label template design, and more.

Upgrade Assessment

Not sure how to update your legacy BarTender software to the latest version? We provide you with a snapshot of your current state BarTender environment along with a custom roadmap to updating your software. Choose to update yourself or let us do it for you as an available add-on.

Label design services

Label Template Design

Our label design services team knows labels. From designing custom labels to consolidating the number of label templates you need, we work directly with you to ensure your labels work harder than you and comply with the latest industry standards and regulations—regardless of the industry's complexity.

Label Template Conversion

Moving your label templates to the latest version of BarTender has never been easier. We convert your existing label files to the proper BarTender formats quickly and efficiently.

Integration design services

File Drop Integration

A custom File Drop integration between your business systems (ERPs, WMSs, MESs, etc.) and BarTender to enable automation across your label printing workflow. This includes BarTender integration design, label mapping, testing, and documentation.

REST API Integration

We implement seamless REST integrations between your business systems (ERPs, WMSs, MESs, etc.) and BarTender to enable automation across your label printing workflow. This includes BarTender integration design, label mapping, testing, and documentation.

BarTender consulting services

General Consulting

Our time-tested discovery process helps us understand your challenges, assess your existing systems, and quantify your desired goals. Whether you need help designing, building, or deploying your labeling system, we are with you every step of the way. Consulting services are available only remotely.

“We’ve had the pleasure of working with BarTender Professional Services on two successful projects. Their expertise in integrating with cloud-based and on-premises business applications, and building automatic data processing methods was invaluable to the customer and feedback has been overwhelmingly positive!”

Fernando Bollo, Tecnipesa
