

IntelliTrack

Collect. Track. Manage.

IntelliTrack WMS

The IntelliTrack WMS software is a reliable, affordable, and easy-to-use warehouse management solution available in both batch and real-time radio frequency (RF) versions. Benefits of the IntelliTrack WMS system include improved inventory accuracy, increased labor productivity, and better customer service.

IntelliTrack WMS includes advanced warehouse management capabilities, including sequenced picking and put-away, cubing, wave management, and cross dock notifications.

IntelliTrack WMS was designed with scalability in mind. Microsoft® SQL Express support means that you can comfortably handle hundreds of users and tens of thousands of SKU's with excellent response time. IntelliTrack® WMS was developed with the latest Microsoft® development tools, assuring compatibility with most any system. By combining IntelliTrack WMS with an RF terminal, you create a complete low-cost, real-time warehouse management system.

With hundreds of IntelliTrack installations world wide, you can be assured of solid performance and reliability. IntelliTrack WMS is an ideal solution for warehouse operations in manufacturing, distribution, retail, government, and healthcare.

(includes ISRP features)

- Terminal Messaging
- RF Portable Application

WMS RF Professional

(includes ISRP & RF Standard features)

- Sequenced Pick & Put Away
- Pallet Tracking
- Basic Cubing
- Replenishment
- Zone Picking

Barcode Printing:

Integrated barcode printing allows you to label your inventory and locations quickly and easily based on the data contained in your IntelliTrack application. Portable data terminal support and barcode labels maximize data accuracy and efficiency when collecting inventory information.

Easy to Use:

IntelliTrack is a user-friendly Windows application. Easy menu navigation allows you to quickly perform common inventory tasks. Because it is a Windows® application, IntelliTrack's user interface will be familiar to anyone who is accustomed to working in this environment.

IntelliTrack WMS speaks the language of the user. At its fundamental core, WMS contains a multilevel data dictionary to display all text on forms and reports. This feature allows a user to configure any text in forms, PDA/PDT prompts, queries, reports and error messages to conform to their in-house terminology.
